2017-2019 BSI/SE/SSSP Integrated Planning Brainstorming

Step 1: Articulating Goals

BSI	Student Equity	SSSP
The Basic Skills Initiative (BSI) was a grant funded initiative from the California Community Colleges Chancellor's Office (CCCCO) which began in 2006 as part of the strategic planning process. The goal of the BSI was to improving student access and success. The Strategic Plan guides California Community Colleges as they serve over 2.9 million students annually at 110 colleges. The BSI was a part of Strategic Plan Goal Area 2-Student Success and Readiness (http://strategicplan.cccco.edu/). The project addressed credit and noncredit basic skills as well as adult education and programs designed to help underprepared students.	College student equity plans focus on increasing access, course completion, ESL and basic skills completion, degrees, certificates and transfer for all students as measured by success indicators linked to the CCC Student Success Scorecard, and other measures developed in consultation with local colleges. "Success indicators" are used to identify and measure areas for which disadvantaged populations may be impacted by issues of equal opportunity. Title 5 regulations specify that colleges must review and address the following populations when looking at disproportionate impact: American Indians or Alaskan natives, Asians or Pacific Islanders, Blacks, Hispanics, Whites, men, women, and persons with disabilities (§54220(d)). The State Budget trailer bill, SB 860 (2014) added requirements to address foster youth, veterans and low income students. Each college develops specific goals/outcomes and actions to address disparities that are discovered, disaggregating data for indicators by student demographics, preferably in program review. College plans must describe the implementation of each indicator, as well as policies, activities and procedures as they relate to improving equity and success at the college.	Student Success and Support Program (SSSP) (formerly Matriculation) is a process that enhances student access to the California Community Colleges and promotes and sustains the efforts of credit students to be successful in their educational endeavors. The goals of Student Success and Support Program (formerly matriculation) are to ensure that all students complete their college courses, persist to the next academic term, and achieve their educational objectives through the assistance of the student-direct components of the student success & support program (formerly matriculation) process: admissions, orientation, assessment and testing, counseling, and student follow-up.

The Student Success and Support Program (SSSP) Unit provides coordination and leadership to the community colleges with respect to credit and noncredit programs and services. Staff also provide technical assistance in the areas of prerequisites, assessment, and student success and support program plan review, in addition to administering the SSSP budget: allocations, recycling funds, and special project grants and contracts. |

Potential Goals: What are some potential goals for the 2017-2019 plan?	Activities: What specific activities work toward this goal?
• These might be continuations or extensions of goals from previous plans • These might be inspired by the example goals on page 4 of the state forms • Remember: the goals must apply to at least two of the three categorical funds: BSI, Student Equity, and SSSP	• What current activities are happening that work toward this specific goal? • What future activities might be planned to work toward this specific goal?
