Best Practices Discussion:

- Phil Maynard - Mt SAC: "While diversity on our campuses is an admirable goal equity is rarely measured as an educational outcome." - Chuck will put in the archives.
 - Professional Development
 - College's Mission Statement
 - SLO Development Process aligned with the campuses Student Equity Plan

What does history have to do with basic skills?

Start on an executive summary

Start on the Goals (AAA)

- * **Academic Goals:** tutoring, supplemental instruction, basic skills, intervention, ESL, cross level, honors, TAP, placement/assessing
- * **Affective Goals:** emotional domain, sense of belonging in the campus community, sense of satisfaction for learning, things "blow out of proportion" too soon, connecting to the community
- * **Advising Goals:** personal, academic, financial aid, all student services including health services, placement/assessing, career.

Next Steps Idea #1: (put on hold)

- Take the AAA Goals - sub committees go out and research what's happening at different points of the students timeline. Show connections at the various points on the timeline.
- Show the Life of a Student at Fullerton College.
- Go out and revisit our fall tasks and go out and see what's working.
- Research of what's working in the framework.
- Narrative of what we see.

Next Steps Idea #2:

- Academic Goals - we are doing a pretty good job; yet there are still goals the campus needs to address.
- Weakness seems to be in the area of Affective Goals and Advising Goals
- We need a system to find out documentations to build recommendations
- Implement a plan to collect data and information about why our students are not succeeding in the affective domain.
- Need to know Why - we are not succeeding.

Tasks:

- **Everyone:** Continue to work on the AAA Goals.
- **Jeanne will write:** Generalized paragraph for Academic Goal. Also - Professional Development for all Three.
- **Mark:** will talk with Ken Meehan.
cc'd: meeting on the 10th.
- **Chris:** will begin writing the Executive Summary
