

Program Update Feedback Information and Process

During the fall semester, the Student Equity Committee asked all program coordinators (anyone who received equity funds to administer a project) to complete a program update form. The Student Equity Committee regular and resource members are asked to read and provide feedback to the programs. Rather than having everyone read all the program updates, we have created small groups* that will read 5-6 program updates and “rate” and provide feedback using the rubric found in the Template and Feedback Form folder. The rubric includes a summary cover sheet along with a more detailed rubric. Since many programs highlighted several activities on the program update, please evaluate each activity separately in addition to providing an overall rating.

*Resource members are encouraged to read and provide feedback at the Student Equity Meetings or by emailing their feedback group as their schedules allow.

At the Dec. 8 Student Equity Committee meeting, we set a tentative timeline for reading and providing feedback:

- Program update forms will be shared through OneDrive the week of Jan. 16
- Committee/resource members are encouraged to review program update forms prior to first committee meeting in February.
- February 9: Groups will meet during the Student Equity Committee meeting to discuss the feedback for each of their programs. Megan and possibly others from the OIRP will be available for any questions
- February 24: The Student Equity meeting will provide an opportunity for large group discussion of common themes, trends, or concerns from the Program Updates.
